

# Nativity Donkey Trail

One of our local donkey owners has been asked if he could provide a donkey for Mary to ride to Bethlehem – but he has a problem – they are lost! He knows he went into all these Places while he was in Minehead – can you help him find his missing donkeys? They are all shapes and sizes; some have disguised themselves and look very strange indeed! Some of them are hiding in the shop window some may be on display in the shop. All of them have a name tag either on them or beside them. When you find one of the missing donkeys all you have to do to help their owner is write their name on this sheet. That way he will know where he needs to go to collect them all!
